10 THINGS

STATISTICS STUDENTS NEED TO KNOW ABOUT THE LIBRARIES

1. Your U of M student ID card is also your library card. Use it to check out material from any library.

2. Claim your University of Manitoba (UM) computer account ID (UMnetID) at iridium.umanitoba.ca. This gives you an official UM email account, and access to computer labs, UM wireless networks and online Library resources.

3. Use our One Stop Search tool to find books, articles, course reserves and much, much more. View our resources by visiting the Libraries homepage: umanitoba.ca/libraries.

4. Use your UMnetID to access valuable online research resources, such as e-books, journal articles, and citation tools both on and off-campus.

5. Visit any Library Services Desk for answers to any questions about library resources and services. For library help via online chat, click on the “Ask A Librarian” icon on the Libraries’ homepage.

6. Check out the Statistics Subject Guide at libguides.lib.umanitoba.ca/statisticsscitech. There is a Course Guide tab for STAT 1000.

7. Need something we don’t have? You can get it through “Document Delivery” at umanitoba.ca/libraries/services/docdel.html. It’s a free service to all students!

8. Look under “Course Reserves” at umanitoba.ca/libraries to see what items your professors have placed on reserve for your courses. There is a copy of the 6th and the 7th edition of the David S. Moore textbook, Introduction to the Practice of Statistics, on two-hour reserve loan at the Service Desk at the Sciences and Technology Library.

9. Group Study Rooms are available to students in the Sciences and Technology Library and some other libraries. Ask at the Services Desk at any of the libraries for more details.

10. Find Library Hours at under “Hours” at umanitoba.ca/libraries, or phone 204-474-9770.
