New Outreach Librarian at the Crane Library

There is a new friendly face at J.W. Crane Memorial Library. The new Long-Term Care Outreach librarian, Grace Romund, will be available by phone or by email to provide information services to all personal care home staff in Manitoba.

Grace can be found at the J.W. Crane Memorial Library at Deer Lodge three days a week and at Riverview Health Centre the remaining days of the week. She provides reference services and literature searches to staff at Riverview Health Centre, Winnipeg Regional Health Authority Long Term Care Program and the Personal Care Homes of Manitoba.

Grace comes to the Crane Library from the Health Sciences Centre where she provided information services to both health care providers, patients and community members. Originally from Vancouver, she worked at the Vancouver General Hospital Library and received her Masters of Library and Information Science from the University of British Columbia. She is a member of the Manitoba Association of Health Information professionals and is an avid runner.

Dementia Care Conference 2015

The Dementia Care Conference hosted by the Alzheimer Society of Manitoba is coming up on March 9-10, 2015 at the Canad Inns Polo Park in Winnipeg.

This year’s theme is Inspiring Champions! Described the organizers of the event as “Champions of person-centred care respect people with dementia and value their dignity throughout the course of the disease”.

Come by the J.W. Crane Memorial Library booth in the vendors area and say “hi” the librarians and pick up some dementia care related resources.
A sample of some of our new titles

From an overview of the theories of aging and assessment through the treatment of disorders, including complex illnesses, this evidence-based book provides the comprehensive gerontological coverage you need to prepare for your role as an Advanced Practice Nurse. Understand how to easily identify factors that may affect the wellness of your patients and their families. Plus, enhance your critical-thinking skills with real-world case studies that bring concepts to life.

This book is the first comprehensive collection devoted to analyzing distinctive ethical issues arising in the delivery of hospice care and designed to promote best ethical practices for hospice care professionals and organizations. Thirteen newly commissioned chapters by seventeen hospice experts populate three thematic sections of the book, each devoted to an aspect of the intersection between ethics and hospice care.

Meiner S. *Gerontologic nursing (5th ed.)*. 2015.
Gerontologic Nursing offers comprehensive disorder and wellness coverage to equip you with the essential information you need to provide the best nursing care to older adults. A body-system organization makes information easy to find, and includes discussions on health promotion, psychologic and sociocultural issues, and the common medical-surgical problems associated with aging adults.

An essential reference text to stay in stride with the recent health care education trend of evidence-based practice. The use of clinical data supported by external research provides an increased likelihood of successful client treatment, ultimately leading to improved patient quality of life. Drs. Stetts and Carpenter evaluate research in spinal pain and present their findings in a format that allows for easy transition from the text to actual clinical cases.

Working on your Continuing Competence Requirements?

As a part of the requirements of the College of Registered Nurses of Manitoba, every year RNs are required to create a self-development plan and document their learning goals and activities.

The LTC Outreach Librarian can help you find and access learning materials such as educational videos, journal articles, etc. to meet the College’s requirements. Contact the library to learn more about these services.
