UpToDate Database Goes Province Wide

What is it?
UpToDate is a health care resource that includes the latest evidence with specific practical recommendations for diagnosis and treatment covering primary care, subspecialty internal medicine, ob/gyn, general surgery and paediatrics.

Who will access it?
Our license has been expanded to allow all health care providers in the province of Manitoba access.

Where can I find info about it?
You may be asked about UpToDate. The following information has been prepared by Health Sciences Libraries for people currently using or who are new to UpToDate:

HSL LibGuide:
https://healthlibrarynews.wordpress.com/2016/01/13/uptodate-available-now-to-all-mb-health-care-providers/

Where can I refer clients to for more information?
You will need to ask if they are located within or outside Winnipeg and refer them as follows:

- **Inside Winnipeg:** healthlibrary@umanitoba.ca
- **Outside Winnipeg:** mhiknet@umanitoba.ca
