Are you looking for more information on a research topic? Clinical guidelines? A specific article? Send me your request and I will search our academic databases for you. Just send an email to gail.matheson@umanitoba.ca with your request!

Canadian Immunization Guide Update
“June 2019 - Erratum: The permissive use of MMRV vaccine in the post-transplantation vaccination of hematopoietic stem cell transplantation (HSCT) recipients has been removed from the text. Table 3 has been revised to reflect this change. MMR and univalent varicella vaccines should be used instead.” For more information please see the table of updates.
