June 2019 Kivalliq Library Services Monthly Update

“As of May 30th, 2019, the National Collaborating Centre for Aboriginal Health (NCCAH) will adopt a new name, the National Collaborating Centre for Indigenous Health (NCCIH). The new name will be reflected in all our new publications, along with our website and social media channels.” - Read the web story

STARS: developing a new WHO psychological digital intervention for adolescents

“The aim of STARS project, which began in March 2018, is to create a digital psychological intervention for adolescents aged 15-18 years old experiencing high levels of psychological distress that impairs daily functioning, for example ability to study, or carry out their duties.” - https://www.mhinnovation.net/blog/2019/may/24/stars-developing-new-who-psychological-digital-intervention-adolescents

New Free Online Course from Machealth

Opioids Clinical Primer: An evidence-based approach to reducing opioid-related harms. “Explore how to optimize non-opioid medications for the management of chronic non-cancer pain. Learn how to collaborate with patients to use non-pharmacological strategies such as physical activity, physical therapies, self-management programs, and psychological therapies for pain self-management. Discover available resources to assist you in helping your patients manage their chronic pain.”

Blue Print Group Webinar: Building Cross-Sectoral Opportunities between HIV, TB and Mental Health Watch online.

“Presented by Mental Health Innovation Network. “This webinar discusses how we can think collaboratively as global actors in the field to understand how we are going to have an impact on some of the sectors outside of mental health that we know can make a large contribution and impact on the integration and building of cross-sectoral opportunities between HIV, TB and mental health. As well as who we can work with and leverage to get this to the top of the agendas.”
