Choosing Wisely: Pediatrics

January 2019

Choosing Wisely Canada

In 2012 Choosing Wisely was launched in the United States with the goal of advancing dialogue on avoiding wasteful or unnecessary medical tests, treatments, and procedures. Modeled after this campaign, and organized by a team of leading Canadian physicians, Choosing Wisely Canada (CWC) aims to help clinicians and patients engage in conversations about unnecessary tests and treatments, and make smart and effective choices to ensure high-quality care.

Choosing Wisely Canada

Paediatrics: Five things physicians and patients should question.

Pediatric Neurosurgery: Five things physicians and patients should question.

Infectious Disease: Four things physicians and patients should question in pediatric infectious diseases and medical microbiology.

Paediatric Surgery: Six things physicians and patients should question.

SickKids Department of Pediatrics: Five things physicians and patients should question.
